OBJECTIVE

My overall objective is to become a great designer, whether I'm involved in print, packaging, video-film production, or web design. I'm a very creative and hardworking person and go out of my way and past my means to prove it on every job I get involved with.

QUALIFICATIONS

I have extensive program knowledge in just about all of the top shelf design programs, including video editing software and web software (Flash & Dreamweaver). Also, I have six years of design production experience, which includes sceneprinting, stock print, video editing and more. My training consists of two years of general education at Grossmont College and a design certificate from San Diego City College, not to mention many seminars and an insatiable appetite to learn.
